Thank you for your query regarding Article 4 direction on School Terrace. Bascially, all permitted development rights are taken away. No alterations can be made. This covers cement rendering, stone cladding on front and side walls, changes to size of window and door openings and inserting dormer windows into the roof.

No porches can be built on the building, alteration of gates, fences and walls.

No painting of outside walls, including any textured paint or coating.

I hope this is helpful to you.
